Strategic Partners are suppliers or service providers to the air transport industry. Through IATA’s Strategic Partnerships, they participate in various projects, activities and committees alongside IATA and its Member airlines. They contribute to the industry by:

- Providing expertise across a wide range of subject areas
- Supporting IATA and its initiatives
- Assisting in the development of industry standards, and
- Facilitating the implementation of these standards, through their industry channels.

Who are IATA’s Strategic Partners?

Strategic Partners are suppliers or service providers to the air transport industry. Through IATA’s Strategic Partnerships, they participate in various projects, activities and committees alongside IATA and its Member airlines. They contribute to the industry by:

- Providing expertise across a wide range of subject areas
- Supporting IATA and its initiatives
- Assisting in the development of industry standards, and
- Facilitating the implementation of these standards, through their industry channels.

What will you find in this Directory?

- The Strategic Partners’ company Profiles
- Their products and services
- Contact information and Corporate Web sites

We invite you to communicate with our Strategic Partners directly for any inquiries.

ABACUS INTERNATIONAL PTE. LTD.

Mr. Lim Lai Hock
Director Solution Division
Tel.: 65 426 0066
Fax: 65 426 9919
LaiHock_Lim@abacus.com.sg

Area(s) of involvement: Passenger & Airport Services
Singapore-based Abacus International is an Asia-Pacific’s leading travel facilitator with more than 15,000 travel agency locations in 24 markets. With 18 years of experience in fusing international best practices and local expertise with global and local partnerships, Abacus provides travel information and reservations specifically tailored to the Asia-Pacific region. Abacus International is owned by Sabre and a consortium of Asia’s leading airlines including All Nippon Airways, Cathay Pacific, China Airlines, EVA Airways, Garuda Indonesia, Dragonair, Philippine Airlines, Malaysia Airlines, Royal Brunei Airlines, SilkAir and Singapore Airlines. Sabre is the US-based leader in the electronic distribution of travel and travel related services.

ACCESRAIL

Mr. Oddbjorn Taraldsvik
Sales Director - World Sales
Tel.: 44 207 802 5423
Fax: 44 207 821 6667
oddbjorn.taraldsvik@accesrail.com

Area(s) of involvement: Travel Partners
AccesRail is a distribution company enabling Partner Railways to distribute their products (point to point or passes) on a shared cost basis via the Global Distribution System (GDS) primary screen using the same booking and ticketing method as airlines. All schedule and fare loading is done through OAG and ATPCO, and fund collection and reconciliation is done through IATA BSP. Currently AccesRail distributes products for BritRail, Norwegian Rail, Swedish Rail, German Rail, Dutch/Belgian Rail and Airport Express / Airport feeder trains. AccesRail products are sold world wide in cooperation with airlines through interline agreements in order to meet the needs of travel agents for rail products. AccesRail will expand its own IATA BSP membership, and are fully committed to e-ticketing in-line with IATA guidelines by the end of 2007.

ACCOMMODATIONS PLUS INTERNATIONAL

Mr. Fred Kamel
President & CEO
Tel.: 1 (516) 798 4444 Ext. 211
Fax: 1 (516) 795 8089
Fred@apihotels.com

Area(s) of involvement: Inflight Services, Travel Partners, World Air Transport Summit / AGM
Founded in 1984 to offer cost effective hotel accommodations to the airline industry, Accommodations Plus International (API) has evolved into a full-service organisation enhancing and facilitating the hotel and destination experience of airline employees, corporate, business and leisure travelers, worldwide. API’s more than 40 airline and corporate clients benefit from its buying power through long-term relationships with the world’s leading hotel chains, franchises, and independent operators.
API’s services can assist Airlines with:
• Crew Hotel Accommodations
• Business Staff Travel
• Billing and Reconciliation for Hotel expenses
• Market Research in any destination worldwide
Their services combined have saved API’s airline clients up to 25% of their overall hotel procurement costs.

A world-leading technology and distribution solutions provider, Amadeus delivers unparalleled expertise to the travel and tourism industry, including leading-edge solutions that cover airlines’ unique business needs, independent of their size, business model or market reach.

Amadeus’ pioneering new-generation Customer Management Solution (CMS) portfolio, Amadeus Altéa CMS, serves network and regional carriers. The Altéa portfolio, based on a pioneering community platform concept, enables improved operational efficiency and increases revenue. The portfolio consists of the Altéa Reservation, Altéa Inventory and Altéa Departure Control solutions.

Low Cost Carriers have alternative Customer Management Solutions - Amadeus Pioneer CMS and Results CMS by Amadeus - based on adaptive technology that provides robust options that easily adjust to their evolving operational requirements.

Further complementing these integrated IT solutions is the Amadeus e-Travel Airline Suite that includes the Amadeus e-Retail engine, which powers more than 120 websites of over 65 airlines.

Other standalone IT solutions include: revenue integrity and automatic ticket reissue tools, in addition to full e-ticket interlining and ground-handling management technology services.

Mr. Gerry Kelly
Chief Executive Officer
Tel.: 353 1 844 7250
Fax: 353 1 844 5294
gerry.kelly@asi-revenue.com

Area(s) of involvement: Revenue Accounting
Aviation Services Ireland (ASI) is based in Dublin, Ireland and has a subsidiary operation in Winston-Salem, North Carolina. For over 14 years, ASI has successfully provided interline processing services to a wide range of airline customers. They provide a unique value for money service to all airlines – irrespective of size or location.
ASI has the expertise to process interline billings in an e ticket and manual environment. ASI will maximise the return to your airline from the interline process, removing the complexity thereby simplifying your business.
ASI has a large team of industry experts based in Ireland and the USA ready to assist in auditing primary and second pass interline billings, interline taxes, recharges and FIMs. They will handle the process up to correspondence stage and will assist you in clearing backlogs or provide a full outsourcing service thereby enabling you to concentrate on the core business.
ASI operates on a commission basis only – no fixed costs – they generate additional cash and profit for your airline – at no cost to your airline.

Area(s) of involvement: Fuel Services, Fuel Technical Group  
As a state-owned enterprise, CAOSC supplies jet fuel and avgas to both Chinese and foreign airlines. The whole corporation is in itself an integration of fuel purchase, transport, storage and sales. The major business activities cover allocation supply, wholesale commissioned purchase, storage and transport of aviation fuel, special aviation liquid products, petrochemical products, and oil products for ground vehicles and equipment. CAOSC is engaged in development of fuel storage facilities, commissioned purchase and sales of fuel equipment. The business activities also include technical consultant services concerning the above main business activities. CAOSC offers oil supply at over 100 civil airports, forming a large-scaled and well-operated civil aviation oil supply system.

DGM SUPPORT B.V.

Mr. Pieter G. Wildschut LL.M.
Senior Vice President
Tel.: 31 20 659 9605
Fax: 31 20 659 8849
pieter.wildschut@dgmsupport.com

Area(s) of involvement: Special Cargoes
DGM Support is the QA/QC head office of the DGM (Dangerous Goods Management) companies. The DGM group is specialised in all aspects of safe transport of dangerous goods (ICAO/IATA/IMO /ADR). Moving any hazardous materials, by any mode of transport, requires expert know-how and services to ensure that national and international rules, regulations and requirements are duly met. DGM provides professional services for (UN) packing, documentation, storage, training, consultancy and logistics of moving dangerous goods, safely and efficiently. Transport Security services, certified Security Training programs, and an impressive range of dangerous goods software solutions complement the DGM service pallet. DGM is operational in: Aberdeen, Amsterdam, Baku, Bangkok, Barcelona, Beijing, Bergen, Billund, Brisbane, Brussels, Buenos Aires, Copenhagen, Darwin, Durban, Eindhoven, Gothenburg, Helsinki, Houston, Jakarta, Johannesburg, Kuala Lumpur, London, Luxembourg, Madrid, Melbourne, Milan, Moscow, Mumbai, Oslo, Perth, São Paulo, Seoul, Shanghai, Shenzhen, Singapore, Stavanger, Surabaya, Sydney, Tianjin, Trondheim and Xiamen.

<td>Eurostar Group Ltd. is the provider of the Eurostar Rail Service between the UK and France and Belgium. With schedules and fares available in GDS, Eurostar can be sold and ticketed in typical airline fashion in the USA via ARC or on an interline basis as part of a throughfare with one of Eurostar’s airline interline partners. Now you can find Eurostar daily departures from London Waterloo International and Ashford in Kent, to Lille, Paris, Brussels and Disneyland Paris. In November 2007, with the completion of the final stage of the high speed rail line, Eurostar will move to the newly expanded and refurbished St Pancras International Station in London in a massive overnight operation from which time, all services will operate into and out of the dedicated Eurostar terminal. In this same year, Eurostar will enter it’s first Interline e-ticket agreement.</td>

Expedia.com provides the web-based means to easily plan travel, purchase tickets, make hotel and car reservations, and access broad travel options such as vacation packages and cruises. As a comprehensive travel service, Expedia.com also offers in-depth destination content, timely travel news and mapping, address finding and direction services.

ExPretio’s mission is to connect Revenue Optimisation to market dynamics. By integrating powerful customer behaviors models into large-scale optimization framework, ExPretio’s pricing solution for airlines can optimally set fares and other product attributes across channels and customer profile while explicitly taking into account passenger purchase habits and competitor’s actions.

ExxonMobil Aviation is the largest supplier of jet fuel in the world. Their goal is to provide consistently high quality products and services wherever they operate around the globe. With seven offices around the world and a presence at over 700 airports, they are a truly global organization, and have skilled people to meet customer needs wherever they may be.

Facet is a world’s technological leader in advanced filtration and separation products and systems serving a variety of customers in the aviation, marine, power generation, petrochemical, general industry and environmental markets.

FAUDI Aviation GmbH & Co. KG is a qualified and approved supplier of different filter vessels and elements to national and international specifications including the latest editions of API/IP 1581, 1583 and API/IP 1590.

FAUDI Aviation supplies military equipment approved according to MIL-F-8901 E, DEF-STAN, TL 4330-001 and others.

<td>Hindustan Petroleum Corporation Limited is listed in the Global Fortune 500 list with a turnover of over $16.5 billion, commands a share of at 20% in oil marketing and refining in India. The company has a strong infrastructure across India covering the entire range product of petroleum products. The company provides service to the airline business through its Aviation Business Unit, “HP Aviation”. Over the years, HP Aviation has been providing refuelling services at most of the major airports in India. Commitment to quality service encompassing all areas of operations, infrastructure and manpower is emphasized by HP Aviation calling its Aviation Fuel Stations as Aviation Service Facilities (ASF). In its drive towards technical competence and customer satisfaction, HP Aviation has partnered with Chevron Global Aviation and this partnership has seen HP Aviation being rated as the most preferred Jet Fuel supplier in India in independent surveys of Airlines and also being the fastest growing Jet Fuel marketer in India over the past four years. HP Aviation believes its role extends to “More than just Fuel” and has taken the lead in enhancing standards across the service spectrum. Some of the initiatives have seen Hindustan Petroleum being the first company in India to: &lt;br/&gt;− Providing Refueling Panel Operations service to its clients. &lt;br/&gt;− Providing E-Ticketing for air travel thru select HP Petrol Stations. &lt;br/&gt;− Have won the Golden Peacock award for Environment Management in 2005 &amp; 2006. &lt;br/&gt;− Obtain OHSAS-18001:1999 Certification for Occupational Health and Safety Management System in addition to ISO – 9001: 2000 &amp; IS 14001: 2004 at its ASFs. &lt;br/&gt;− Provide a multilingual website in major languages across the globe. &lt;br/&gt;www.hindustanpetroleum.com/aviation</td>

With a tradition of 50 years and 240 employees, Hummel GmbH u. Co. KG is as versatile with the manufacture of ATB products as with bar code and continuous forms. Their flight, ferry and rail tickets, ticket covers, boarding passes, boarding pass wallets and thermal baggage tags meet the highest security and handling requirements. They face the latest market demands with new products such as boarding pass rolls, RFID in thermal baggage tags and boarding cards, and their thermal boarding cards and boarding-pass wallets are perfectly suitable for 2D barcodes, due to the use of thermal top-coat paper qualities. In addition, their products are a perfect media for advertisement. They offer your advertisement partners individual solutions, e.g. a new technology which allows to print with scent. Moreover they have specialised in security features for travel documents. Their latest development is a security against forgery, a thermochromic ink. This special ink reacts on heat by changing from grey to red. After some seconds, it comes back to its initial colour grey. For the time being this ink is absolutely forgery-proof.

IndianOil, currently India’s largest commercial enterprise, is also the highest ranked Indian Company in the Fortune ‘Global 500’ listing, at 170th position. It has been adjudged the number 1 petroleum trading company among the 79 Major Petroleum trading companies in the Asia-Pacific region and is ranked 279th in the latest Forbes ‘Global 500’ listing of the largest public companies.

IndianOil controls 10 of India’s 18 refineries – at Digboi, Guwahati, Barauni, Koyali, Haldia, Mathura, Panipat, Chennai, Narimanam and Bongaigaon—with a combined refining capacity of 54.20 Million Metric Tonnes per annum (MMTPA) or 1 million barrels per day (bpd). IndianOil and its subsidiaries account for 56% petroleum products market share among Public Sector Oil Companies. 42% National refining capacity and 69% downstream pipeline throughput capacity. IndianOil has set up offices in Sri Lanka, Mauritius & UAE and is simultaneously scouting new opportunities in energy markets in Asia & Africa. IndianOil Aviation Service has also entered the Aviation Fuel business at Mauritius by joining the Hydrant Refueling System consortium. IndianOil’s ISO 9002 certified Aviation Service commands a 65% market share (2004-05) in Aviation Fuel business, meeting the fuel needs of domestic and International flag carriers, Private airlines and the Indian Defence Services. From Thiruvananthapuram in the South to Leh in the North, from Portbender in the West to Passighat in the East, IndianOil Aviation Service covers India like no other Oil company. Today, IndianOil’s 95 Aviation Fuel Stations dot every region of India, handling nearly 1250 flights a day, or one every 70 seconds. Be it Mumbai - the busiest hub in the region, or Leh in Jammu & Kashmir (the highest civil airport in the world at an altitude of 10,682 ft), IndianOil is always there to serve you. Indian Oil Aviation Service markets JET A-1, AVGAS 100LL, JP-5, Methanol mixture, MJO-II and Aviation Lubricants.

The aviation industry is looking at technology solutions to improve operational efficiencies, reduce costs, and drive customer loyalty. But to realize these goals through technology, companies need to access the same information worldwide, automate business processes, and make more informed decisions with integrated intelligence. For more than 25 years, Oracle has worked on ways to help companies manage critical information. They built the first complete suite of business applications for the Internet and created the fastest, most reliable, and least expensive application server. Their customers have reliable, secure, and complete business systems that give them better quality information at a lower cost.

As one of the world's largest enterprise software company, Oracle is committed to helping the aviation industry spend less and know more. Visit [http://www.oracle.com/industries/travel_transportation](http://www.oracle.com/industries/travel_transportation) to explore how Oracle is helping companies across the aviation industry drive customer loyalty, streamline operations, optimize asset utilization, improve financial and personnel management, and enhance collaboration.

QUANTUM AVIATION SOLUTIONS, INC.

Mr. Bob Blake
Manager, Business Development
Tel.: (514) 359 1836
bob.blake@quantum.aero

Area(s) of involvement: Passenger & Airport Services
Quantum Aviation Solutions was established in 2005 by a team of airline industry experts with deep and lengthy experience in the areas of baggage handling and management. Quantum’s sole focus is providing comprehensive, flexible baggage tracking and management solutions to airports and airlines. The firm’s initial software offering, BagSuite, is comprised of BagScan and BagTrail, baggage reconciliation (BRS) and monitoring solutions (BMS). These offerings are an extension of an outstanding and well respected system originally developed and marketed by Lufthansa Systems Group. Quantum is headquartered in Atlanta, Georgia with offices in London, New York, and Toronto. BagSuite is currently used by over fifty airlines and airports worldwide.

tim.powell@sabre.com

Area(s) of involvement: Interline Tariffs, Passenger & Airport Services, STB in BCBP, STB in CUSS, STB in ET, STB Preferred Partner, World Air Transport Summit / AGM

Sabre Holdings connects people with travel possibilities and provides distribution and technology solutions for the travel industry. Sabre Holdings supports travelers, travel agents, corporations, government agencies and travel suppliers through its companies: Travelocity.

Sabre Travel Network and Sabre Airline Solutions. Headquartered in Southlake, Texas, the company has approximately 9,000 employees in 45 countries. Full year 2005 revenues totaled $2.5 billion. Sabre Holdings, an S&P 500 company, is traded on the NYSE under the symbol TSG. More information is available at http://www.sabre-holdings.com.

Sabre Travel Network, through its global distribution system (GDS) connects suppliers, including airlines and hotels, with over 50,000 travel agency locations. Suppliers get single connection access; travel agents get real time access to many travel products from suppliers through an integrated source into their businesses; consumers get access to a global supermarket of travel possibilities.

Sabre Travel Network brands include GetThere, a corporate travel reservation technology, and Jurni Network, the travel agency consortium providing members products from preferred travel suppliers using sophisticated market intelligence.

Sabre Airline Solutions provides products supporting airline marketing, sales, service and operations. Over 200 airlines use its decision-support tools to increase revenues and improve operations, while over 500 use its leading operational technology. Over 100 airlines rely on Sabre Airline Solutions for passenger management solutions, and others use the company’s consulting group for strategic, commercial and operational advice.

Travelocity is the traveler’s champion and guarantees everything about a customer’s booking will be right. Travelocity is the fifth largest travel agency in the U.S. -- booking $7.4 billion in travel worldwide in 2005. Based in Southlake, Texas, Travelocity also owns and operates Travelocity Business(SM) and GetThere for corporate travelers, lastminute.com, a leader in European online travel and ZUJI, a leader in Asia-Pacific online travel.

<td>As the leading provider of IT solutions for China’s air travel and tourist industry, TravelSky Technology Ltd. operates all Chinese airlines’ Inventory Control Systems. They also provide travel agencies, at more than 6,500 locations, with the ability to search, price and book air and travel products with the world’s scheduled air services and other travel vendors. The company’s next generation Departure Control System has also been set up to complete an integrated service plan for all industry players and ordinary consumers benefiting from China’s rapid air-travel growth. TravelSky is listed on The Stock Exchange of Hong Kong (Stock Code: 09696). TravelSky.com, developed and owned by TravelSky, is the dominant air travel portal of China.</td>
